Re: Madisonville City Park Walking Path Project

Scotty's Contracting & Stone is pleased to submit the scope and pricing for roadway preparation, stone base construction and asphalt paving for the aforementioned project in Madisonville, KY.

Scope of Work: Approx. 8' x 3,500' (3,112 yd²) Paved Walking Trail (See Detail Sheet Below)

- Existing stone walking trail varies in width from 4 – 6' and is constructed of various stone types, ranging from coarser #4/#57 stone to finer #9/weathered DGA. Scotty's Contracting proposes to widen existing trail to a consistent width of 8' where allowable (note that, due to adjacent trees and lake banks, some areas will be more narrow) to facilitate grading machinery, haul trucks and paving equipment.
- Stake and layout proposed widening and realignment.
- Remove two (2) existing wooden pedestrian bridges and replace with temporary CMP (corrugated metal pipe)/DGA stream crossings; walk bridges are to be set aside and reinstalled upon completion of paving.
- Excavate/trench existing stone walking path as needed to obtain a consistent width of approx. 8'. Widening to be excavated to a depth of approx. 4" and backfilled with 4" compacted DGA stone.
- Grade and shape existing stone path and widening to a width of 8'. Apply DGA stone as needed to existing stone path and widening to obtain a minimum stone thickness of approx. 6".
- Install 2" asphalt surface mix
- Reinstall wooden walking bridges

Total Value For Work Described: \$138,777.00

Considerations/Exclusions:

- Given the fluctuations in petroleum-based products, Scotty's reserves the right to adjust this proposal price (+ or -) at the time of installation to reflect changes in petroleum-based products

Attachment: City Park Walking trail bid (1478 : Reject Bid for City Park Walking Trail)

using the Kentucky Average Price Index (KAPI) as published by the Kentucky Transportation Cabinet. KAPI at time of bid submission is \$539.29.

- Permits/fees/bonds not included.
- Field testing of construction materials (soil, stone, asphalt etc.) not included.
- Shouldering of newly installed asphalt not included.
- Seeding/strawing of disturbed areas and shoulders not included.
- Within the paving limits of this project there are numerous PVC cross drains that lack sufficient cover as it relates to construction traffic and have the potential of being crushed during our work; it is worth noting that some of these cross drains are already cracked/chipped on the inlet and outlet ends. It is recommended that these drains be excavated and buried deeper, or possibly replaced, prior to construction to avoid damage from heavy traffic. Scotty's Contracting assumes no responsibility for damage to these drains should they be left in place in their current condition.
- Scotty's Contracting assumes no liability for soft/yielding areas of the subgrade or the existing stone roadway and has included no such pricing in its proposal for correction of poor grade conditions or materials. Areas identified during construction as being unstable or unsuitable for pavement construction are to be remediated at the discretion of the City of Madisonville by either the forces of the City of Madisonville or Scotty's Contracting. Should Scotty's Contracting be requested to remediate these areas, all work related to such remediation shall be subject to the following unit pricing in addition to the amount quoted above: Labor - \$100/hr, Equipment - \$150/hr, #2 stone backfill - \$30/ton, DGA stone backfill - \$30/ton, Geotextile Fabric - \$3/yd², Geogrid - \$3/yd².
- Solid rock excavation not included.
- Scotty's Contracting is not responsible for damage to trees (roots, branches etc.) resulting from construction activities.
- Utilities to be located by City of Madisonville prior to mobilization. Utility relocation/removal not included.
- Tree trimming/branch removal to facilitate haul trucks and construction equipment to be performed by others prior to mobilization.
- Traffic control not included. It is the understanding of Scotty's Contracting that the walking path project area is to be shut down to traffic during all phases of construction.

Thank you for allowing Scotty's Contracting & Stone the opportunity to provide pricing on this project. Please feel free to contact me with any questions or comments you may have.

Nathan Roberts P.E.
